This is a certification of the front end message formats only and does not imply interchange qualification. Please monitor qualification immediately upon placing a merchant in production. If a problem is identified by anyone using this product in the production environment, Chase Paymentech will request that these problems be addressed in a timely manner, and a re-certification be completed.

In the future, if you make changes to the software, it is required that you complete a re-certification project. **All re-certifications must be done using the spec version that is current at the time of the new certification, and must include all features listed as Mandatory Certification Requirements. Waivers will not be granted.**

We offer a 24-hour Advanced Product Support Help Desk for our Integrators. Please feel free to contact them at 1-800-254-9556.

Sincerely,

Kara Potterbaum - Integration Consulting
