- The following EMV contact products have been tested and were certified with the card brands. ADVT, E2E, AEIPS, M-TIP, were included in the certifications.

The following devices are considered to be EMV certified with TSYS when using the EMV kernel configuration 2C.

- Muira Shuttle M006/M010

Please note that the analysis performed was a limited test and that it remains the responsibility of the developer to ensure that all current and future required data elements are supplied for interchange compliance. The developer must also ensure that the full and unaltered contents of the magnetic stripe are transmitted in each authorization request message.

Recertification is required by October 24, 2019 to retain TSYS Acquiring Solutions certification compliancy status.

If you have additional questions or need further assistance, please contact Developer Services at acq-developerservices@tsys.com.

Sincerely,
Mike McCandless
