Subject: American Express Certification – Approved Registration FDMS-160727-00239

Dear Participant ,

Your registration has been approved. Please see below the details of this approval.
Please note that the tested POS device below must be retested when:

> A. A new terminal is selected for deployment, end-to-end testing/certification is required to ensure chip-card/POS device interoperability.
> B. Card non-acceptance and/or inoperability issues, non-compliance.
> C. An existing POS device that has been previously certified for American Express AEIPS/Expresspay card acceptance but has had an update.
>
> Examples of updates include:
> • New EMV kernel version
> • Change to the terminal application/payment component
> • Change involving peripheral equipment (i.e. signature pad, pin-pad, reader)

Registration Date : Wed Jul 27 00:00:00 GMT 2016
Test Plan Version : AEIPS 6.2
Registration ID : FDMS-160727-00239

Please login to the Network Certification Site for further details.

POS Device Tested :

Device Provider Name:	BBPOS
Device Name/Model:	AnywhereCommerce Walker

Device Software Name / Version #:	QuikSale Payment Application v2.1.0.x
Kernel Application Name and Version (contact):	BBPOS EMV L2 Kernel Version 3.0
EMVCo Level 1 Approval Number:	12889 0613 400 21 BCS
EMVCo Level 2 Approval Number:	2-02898-1-2C-BCS-0914-4.3.c

Production Enablement Requirements: Upon successful completion of certification and prior to deployment, please ensure required live parameters are configured, and all Live CAPKeys (Certification Authority Public Keys), are downloaded to your POS device, and test keys (if present) removed from POS device.

No Warranty and No Liability:
American Express provides no warranty of any kind for the tested POS Device, and is not responsible for any damages that may have been caused by testing.

Thank you,
American Express Certification Participant Program
