RE: EMV Certification

Dear Thami,

This letter applies to the following EMV point-of-sale transaction processing environment:

Certification details	
Terminal Type	Attended POS - Chip - Magstripe - No PIN MPOS
Terminal Brand	AnywhereCommerce Walker
Terminal Model	V 3.4
Software Application Name	QuikSale Payment Application
Software Version	v2.1.0.x
PIN Pad Device Name	N/A
PIN Pad Software Application	N/A
PIN Pad Software Version	N/A
Level 1 Approval Reference(s)	12889 0613 400 21 BCS
Level 2 Approval Reference(s)	2-02898-1-2C-BCS-0914-4.3.c
EMV Kernel(s), including version	BBPOS EMV L2 Kernel Version 3.0

We are able to confirm that the above device/software has satisfied all testing requirements for the First Data EMV Certification, as per the results of the tests completed on 08/15/2016. First Data is not responsible for any code changes that adversely impact the original certification.

First Data certification tests are a series of online tests between an EMV card accepting device (including PIN entry devices) and the Brand's and/or First Data's test authorization system. These tests verify that EMV cards are processed correctly according to the EMV specifications of MasterCard, Visa, American Express and Discover.

Based upon the results of the tests, First Data hereby grants the above referenced device and transaction processing application approval for acquirer certification.

Sincerely,

Mary Gaspar-Hillenbrand
